POSITIONING

One profile spans analysis, modeling, and data systems.

The work stays connected from trusted inputs to decisions people can act on.

01

Data Analyst

Frames the question, defines KPIs, and communicates the decision.

8+ strategic dashboards

02

Data Scientist

Builds interpretable models and validates whether they generalize.

85.1% R^2 · 89% accuracy

03

Data Engineer

Builds reliable pipelines, transformations, and data-quality controls.

10K+ records automated

EVIDENCE

The work is already measurable.

Outcomes across business intelligence, automation, and applied machine learning.

40%

faster reporting

Across five Bank Indonesia branches

92%

text-processing accuracy

Gemini API workflow for question automation

89%

classification accuracy

Stock movement research · Best Paper

EXPERIENCE

Experience shaped by delivery, not just analysis.

2024

Bank Indonesia

Business Intelligence Intern

8 dashboards · 85% stakeholder satisfaction

2024-25

Telkom University

Teaching Assistant

500+ assignments · 30% performance lift

2025

Garda Abdi Negara

Database Engineer

10K+ questions · 75% faster processing

2025-26

Cerebrum

Data Analyst

Prophet forecasting · Power BI KPI dashboards

2026-now

Cerebrum

Data & AI Engineer

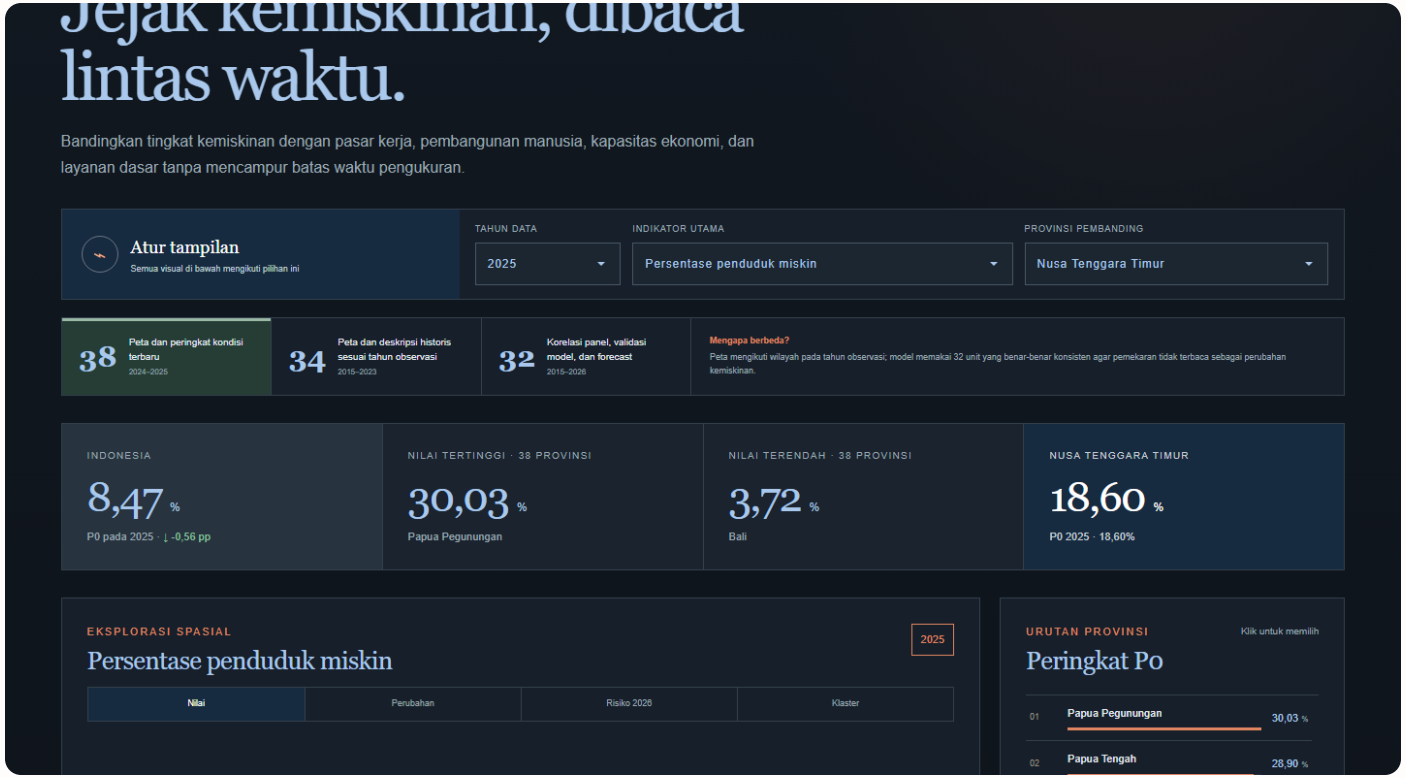

33.5K+ questions auto-QC'd · LLM content pipelines

Three national maps make regional patterns visible and comparable.

PDDIKTI maps higher education, SPPG Insight tracks service coverage, and Peta Kemiskinan combines BPS trends, spatial clustering, and forecast diagnostics.

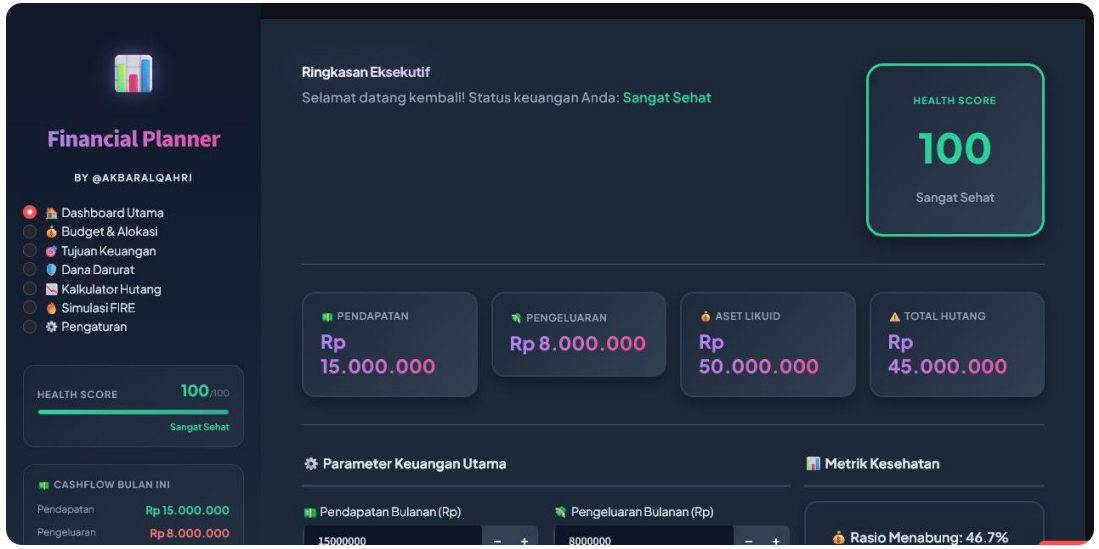

3 DEPLOYED APPS

3	38	0.353
live geo portals	provinces covered	forecast MAE (pp)

OPEN PETA KEMISKINAN ↗

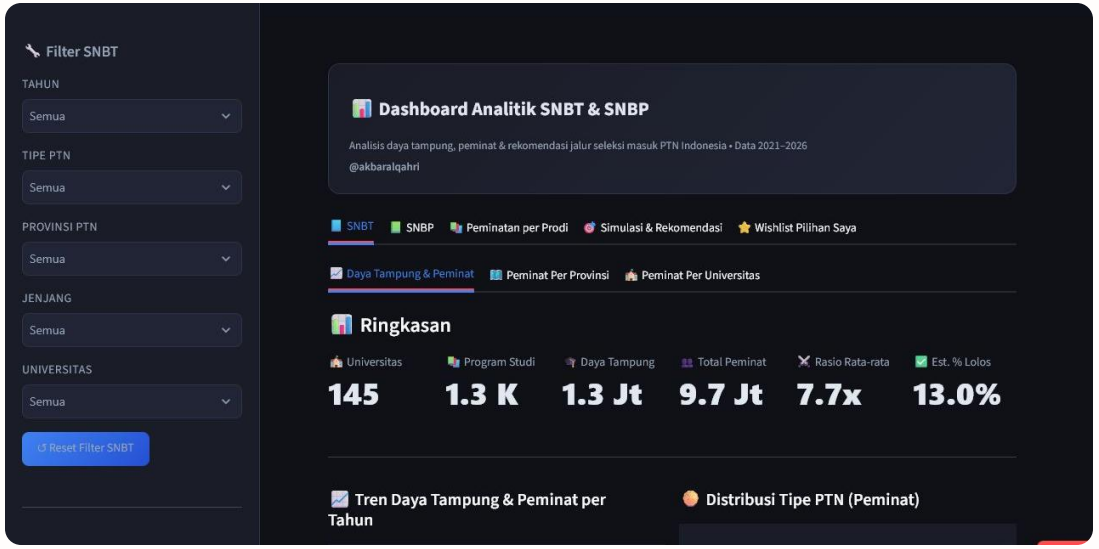

Deployed apps turn complex choices into guided analysis.

Financial Planner

STREAMLIT

Scenario-based financial planning with actionable summaries.

SNPMB Analyst

STREAMLIT

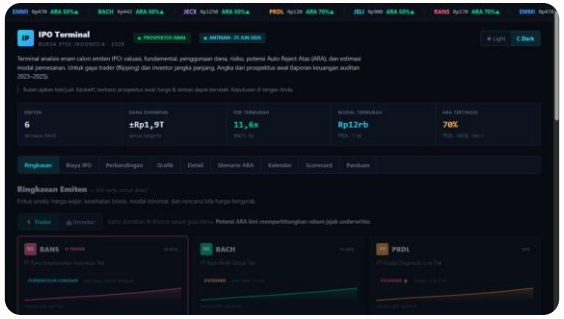

Exploration and comparison for Indonesia’s university admission pathway.

Financial-market analysis becomes clearer when the product leads the user.

IPO TERMINAL

Screen new listings with a focused workflow.

A product view designed to reduce cognitive load while comparing IPO opportunities.

ypcemas.streamlit.app

IHSG ANALYSIS

Explore market signals in one visual workspace.

ypcsaham.streamlit.app

Forecasting connects model quality to real planning decisions.

85.1%

R^2 across 34 provinces

TIME SERIES

Cerebrum product forecasting

Food Security + Cerebrum Forecasting

Two forecasting tracks connect public-policy risk and education-product demand to practical planning.

BEST PAPER · ICoDSA 2025 / CEREBRUM FORECASTING · 2026

BUSINESS INTELLIGENCE

Public dashboards make analytical work easy to inspect.

One Power BI sample and two public Looker Studio projects.

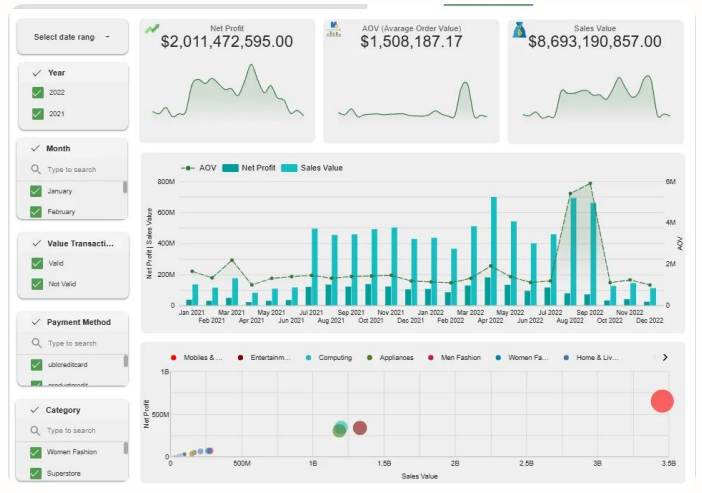

Power BI Portfolio

KPI · revenue · user monitoring

Inteko Test

5-page product sales analysis

Sales Performance

Campaign · product · customer

INTERNAL AUTOMATION

Internal data products reduce manual operational work.

Task Management

Assignments
Revisions and deadlines
Task communication

QC Agent

Answer-key retrieval
Automated prepublish QC
Checkpointed reporting

Momentum & Quota

Teacher capacity
Event schedules
Allocation visibility

Live Class

Schedules and mentors
PIC follow-up
Attendance analytics

SYSTEM BASIS

Google Sheets & Apps Script dashboards · Node.js, Playwright & SQLite QC automation · safe synthetic previews
